KUTLWANO TAKE

SOFTWARE DEVELOPER

PROFILE

As a Software Developer, I have experience building and deploying full-stack and cloud-based applications. My projects include Agile Kickoff & Git Collaboration, a Generative AI content app integrating pre-trained models via API, and a Power Apps asset management system for IT departments.

I'm skilled in HTML, CSS, JavaScript (React), and Git/GitHub workflows (branching, merging, pull requests), with backend and cloud expertise in AWS API Gateway, DynamoDB, and CI/CD pipelines using CodeCommit, CodeBuild, CodePipeline, and CodeDeploy.

Certified in AWS Developer Associate (2025) and Software Testing Bootcamp (2025), I'm passionate about creating scalable, user-centric, and accessible digital solutions that enhance efficiency and user experience.

WORK EXPERIENCE

WEB DEVELOPER

Talent Match Africa SEPTEMBER 2024 - September 2025

- Team Collaboration: Working with designers and back-end devs.
- Responsive & Adaptive Design: Mastering CSS Grid, Flexbox, and media queries.
- CSS Preprocessors & Frameworks: Tailwind CSS or Bootstrap.
- Problem-Solving: Debugging complex issues and finding efficient solutions.
- Version Control: Git workflows (branching, merging) in a team setting.
- Project Management: Trello.
- Design Tools: Figma, Daisy UI, and Neumorphism
- Proficiency in HTML, CSS, and JavaScript for creating visually appealing and interactive user interfaces.

SOFTWARE DEVELOPER

Project Y OCTOBER 2025 - CURRENT

- Agile Development Simulation: Organized and participated in sprint planning sessions to simulate a real-world Agile environment.
- Version Control & Collaboration: Managed task division, branching, and merging using Git/GitHub to reinforce version control fundamentals in a collaborative setting.
- Generative AI Integration: Developed a simple generative AI application by integrating a pre-trained model via API.
- Prompt Engineering: Focused on designing clear, structured prompts to ensure quality output and effective content generation from the AI model.
- Custom Business Application Development: Designed and built a custom business solution using Microsoft Power Apps for internal IT asset management.
- Full-Cycle App Functionality: Developed end-to-end functionality for both users (view, request, return assets) and administrators (inventory management and approval workflows).

CERTIFICATES

Coursera

- Version Control with Git
- Introduction to Generative AI

Udemy

- Ultimate AWS Certified Developer Associate 2025
- The Complete 2025 Software Testing Bootcamp
- The complete 2024 Web development course
- The complete JavaScript 2025 course

SOFT SKILLS

- Soft Skills & Core Competencies
- Communication & Interpersonal Skills:
- Collaboration
- Communication & Documentation
- Networking & Professionalism
- Active Listening
- Empathy
- Cognitive & Problem-Solving:
- Problem-Solving
- Critical Thinking
- Decision-Making
- Creativity & Innovation
- Adaptability & Work Ethic:
- Adaptability & Learning Mindset
- Time Management & Organization
- Resilience (or Stress Management)
- Accountability & Ownership
- Integrity & Ethics

TECHNICAL SKILLS

- AWS Global Infrastructure
- API Development with API Gateway
- Amazon DynamoDB
- Amazon SQS
- CI/CD Pipelines – using CodeCommit, CodeBuild, CodePipeline, and CodeDeploy
- HTML
- CSS
- JavaScript (React)
- Git & GitHub
- Branching, Merging, Rebasing, Pull Requests
- Testing and debugging
